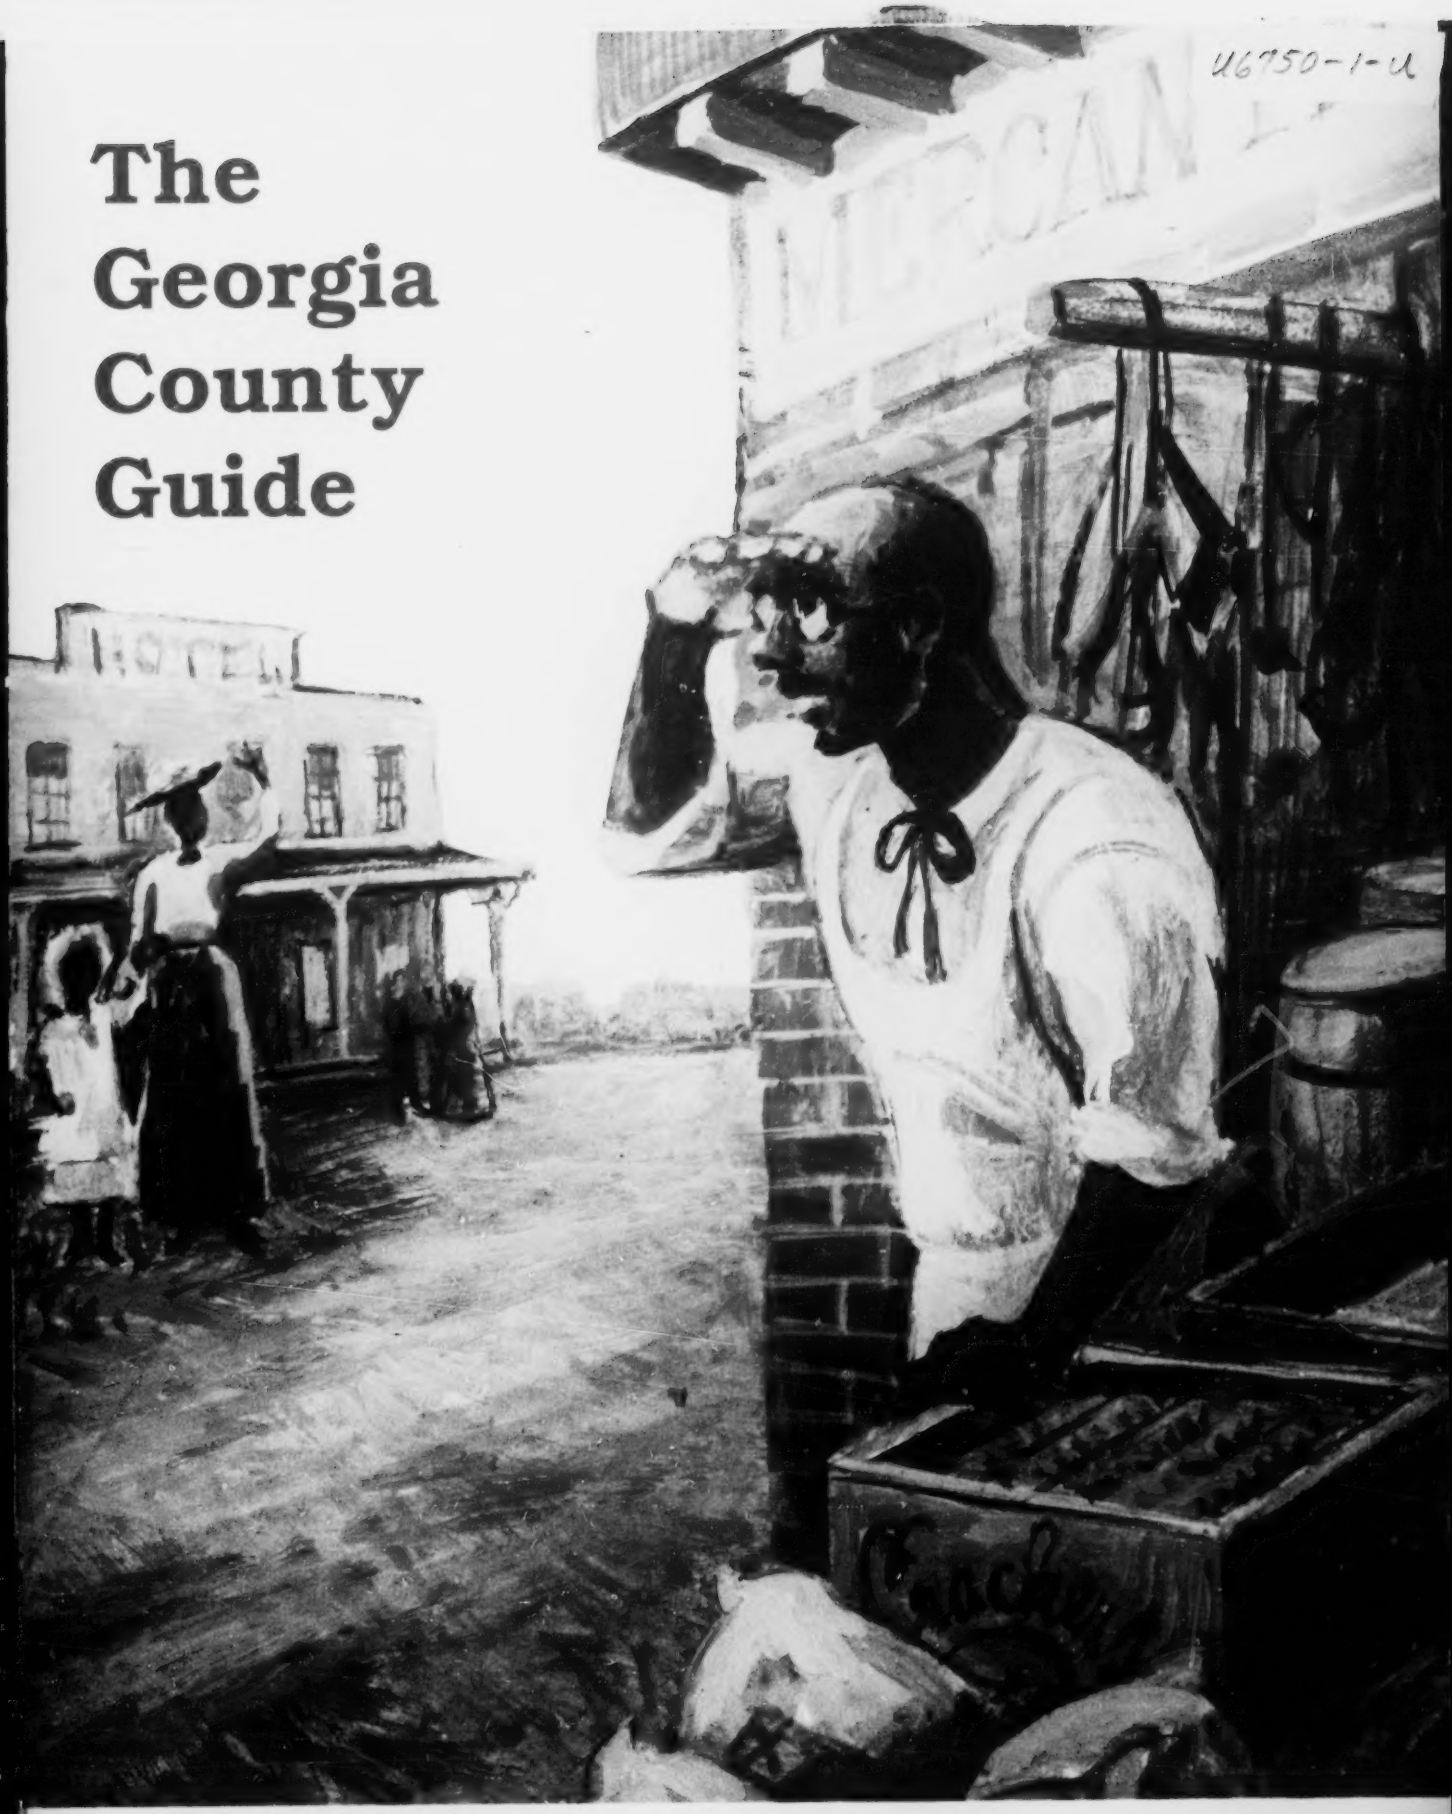
The Georgia County Guide



The University of Georgia • Cooperative Extension Service • College of Agriculture • Athens

COOPERATIVE
EXTENSION
SERVICE

THE UNIVERSITY OF GEORGIA COLLEGE OF AGRICULTURE ATHENS, GEORGIA 30602

Office of the Director

Dear Friends:

During the decade of the 80's Georgia experienced a tremendous increase in agricultural production, industrial expansion, commercial development and population growth. Georgia is currently the 11th fastest growing state in the nation, and at the turn of the century the state's population is projected to exceed 7.5 million residents.

In order to prepare for this unprecedented growth, state and local decision-makers and interested citizens need access to information so they may begin to understand the trends influencing agriculture, the family and the community.

The 1989 Georgia County Guide is one of several efforts undertaken by the Cooperative Extension Service of The University of Georgia College of Agriculture to provide assistance to the State of Georgia and its local units of government. For more information, contact any county Extension office.

Sincerely,

C. Wayne Jordan

C. Wayne Jordan
Director

THE UNIVERSITY OF GEORGIA, THE U.S. DEPARTMENT OF AGRICULTURE AND COUNTIES OF THE STATE COOPERATING
The Cooperative Extension Service offers educational programs, assistance and materials to all people without regard to race, color, national origin, age, sex or handicap status. A UNIT OF THE UNIVERSITY SYSTEM OF GEORGIA

The Cooperative Extension Service, The University of Georgia College of Agriculture offers programs, assistance and materials to all people without regard to race, color, national origin, age, sex or handicap status.

AN EQUAL OPPORTUNITY EMPLOYER

April, 1989

Issued in furtherance of Cooperative Extension work, Acts of May 8, and June 30, 1914, The University of Georgia College of Agriculture and the U. S. Department of Agriculture cooperating.

C. Wayne Jordan, Director

Editor's Note

The 1989 Georgia County Guide contains 77 tables of agricultural, educational, economic and demographic facts and figures for all 159 of Georgia's counties, plus 10 maps collected from 32 federal and state agencies and 4 private companies.

The principal concern is that the Georgia County Guide should be an accurate, up-to-date and easy to use reference work. The contents of this publication can be reprinted or otherwise used without written or oral authorization, but acknowledgment of the proper source would be appreciated. Individuals and organizations are encouraged to use the material for planning purposes.

A very special thanks to Sue Boatright. The entire project would never have been completed without her dedication, hard work and valuable suggestions. Her assistance is deeply appreciated.

Thanks must also be given to Julie Koch, Cletus Stripling and Marty Argo for all of their help.

Suggestions from users, plus the development of a better system to manipulate data, have enabled us to improve and expand the format. Comments, corrections and suggestions for additions to or improvements of this work are invited.

This year's cover and all previous covers were painted by Vincent Keesee.

Douglas C. Bachtel
Athens, Georgia

TABLE OF CONTENTS

AGRICULTURE **1-16**
Cooperative Extension Service Districts (Map) 1
County Extension Directors 2-4
Crop Production:
Corn, Soybeans, Peanuts 5-6
Cotton, Tobacco, Wheat 7-8
Oats, Rye, Sorghum 9-10
Irrigated Farm Land 11-12
Livestock and Poultry Production 13-14
Number of Farms, Harvested Cropland, Average Farm Size 15-16

* Metropolitan County

-- Not reported

\# Base figure too small to meet statistical standards for reliability of derived figure.

[1] This information was compiled from estimates supplied by county Extension agents for educational purposes only. Numbers represent acres of irrigation systems, not irrigated acreage. Due to double cropping practices the actual irrigated acreage could be 20-30 percent higher than these numbers.

[2] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Livestock and Poultry Production: 1985-1988

* Metropolitan County

--Data not available due to disclosure criteria

[1] See Appendix

[2] Rank: 1 = highest (range, 1-159), [3] (range, 1-156)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

-- Four counties not submitting data

[1] Sworn Officers are authorized to exercise the power of arrest.

[2] Rank: 1 = highest (range, 1-155)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Index Crimes Reported: 1987

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

NOTE: These figures solely reflect reports of incidence of crime by law enforcement agencies in each county to the Georgia Crime Information Center.

• Metropolitan County

[1] Commitment of a child to the Department of Human Resources was instituted by law in 1963 and implemented by the Division of Youth Services in 1965. It is often the final disposition of the Juvenile Court when probation or other counseling services have failed to prevent a chronic or serious offender from returning to the attention of the court.

[2] Population at Risk--Ages 10-17

[3] Rank 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[4] Commitments which have resulted in placement in Youth Development Center (YDC) or Short-Term Treatment Program (STTP).

Reported DUI Arrests: 1979-1987

* Metropolitan County

NA Not Applicable

\# Represents an increase or decrease from a zero base

1 2
Rank: 1 = lowest (range, 1-159), (range, 1-158)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

3
See Appendix

State Prison Inmates' Home County: 1983-1988

* Metropolitan County

NOTE: Data excludes those incarcerated in a county jail awaiting transfer to a state prison as of December of each year.

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Business Patterns: 1981-1986

* Metropolitan County

[1] An establishment is a single physical location where business is conducted or where services or industrial operations are performed.

[2] Employment is the count of employees during the pay period that includes March 12, as reported on Internal Revenue Service Form 941, or as corrected by estimates in those cases where it was incompletely or improperly reported.

GEORGIA		55,848,577		54,170,565		81,907,907			

* Metropolitan County

1
Master Economic Rank is determined by using the information of personal income, sales tax receipts, motor vehicle tags, and assessed property value.

2
Based on sales tax

3
Reported on Georgia Returns

4
Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Establishments, by Industry: 1986

• Metropolitan County

[1] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

-- Data not available

[1] [2] [3] [4] Rank: 1 = highest (range, 1-159), (range, 1-140), (range, 1-145), (range, 1-123) When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1] Per capita income is the total personal income of the residents of a given area divided by the resident population of that area.

[2] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Georgia Personal Income Tax: 1986

	Total Number of Returns Tabulated	Adjusted Gross Income Less Deficit, 1986					Amount of Tax Liability, 1986			
		Total	Average Per Return	1 Rank of Average	Percent Change in Average 1985-86	Net Taxable Income	Total	Average Per Return	1 Rank of Average	Percent Change in Average 1985-86

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Poverty Characteristics: 1979

* Metropolitan County

-- Data not available

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Sale of Beer: 1988

ECONOMICS

Sale of Legal Distilled Spirits: 1989

Total Personal Income: 1981-1986[1]

* Metropolitan County

1 See Appendix

2 Rank: 1 = highest (range 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Transfer Payments: 1981-1986

* Metropolitan County

--High school students attend neighboring county schools.

1 Includes special education students' scores.

2 Special education students' scores not included
Toombs county average score = Toombs county + Vidalia city scores averaged together

3 Passing criteria were increased in 1986.

4 Writing test is not included in average score.

* Metropolitan County

NA --Data tabulation not appropriate

[1] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[2] Total includes failures from special education category.

County Systems: Number of Schools, Enrollment, Average Daily Attendance, Graduates and Dropouts: 1987-88

* Metropolitan County

** Tri-County High (Marion, Schley and Webster) included in Marion; Baker High included in Mitchell; Quitman High included in Stewart.

-- Data not available

[1] Masters Degree or higher

[2] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Universities, Colleges and Technical Schools: 1988-89

* Metropolitan County

[1] [2]
Rank: 1 = highest (range, 1-159), (range, 1-156)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

GOVERNMENT

Georgia Representative Districts: 1989

Georgia Senatorial Districts: 1989

GOVERNMENT

U. S. Congressional Districts: 1989

Accidents by Major Industry Division: 1987

UNPROCESSED CASES										11120		

* Metropolitan County

[1] Processed Indemnity Cases

[2] Rank: 1 = Lowest (range, 1-155)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1] Rank: 1 = lowest (range 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1] Rank of size and population: 1 = largest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[2] Population per square mile is calculated by dividing the total county population by the number of square miles in each county.

* Metropolitan County

\# Represents an increase or decrease from a zero base

1
Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

County Seat; Date of County Creation; County Seat Population; and Population Living In and Outside Municipal Boundaries: 1986

* Metropolitan county

--County seat not incorporated, data not available

[1] Estimates

[2] Rate: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

[1] An urbanized area consists of a central city or cities and surrounding closely settled territory ("urban fringe").

[2] Urban areas are places with 2500 or more inhabitants.

[3] A farm is a place with $1000 or more in sales of crops, livestock, or other farm products during the preceding calendar year.

POPULATION

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

* Metropolitan County

1
Rank: 1 = largest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

POPULATION

* Metropolitan County

[1] Rank: 1 = largest (1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

PUBLIC ASSISTANCE

AFDC to Households and to Persons Under 18 Years of Age: 1983-1987

* Metropolitan County

[1] Aid to Families With Dependent Children; Calendar Years 1983-1985, Fiscal Year 1987.

[2] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

Long-Term Disability Benefits to Persons Ages 18-64; and Supplemental Security Income to Persons Ages 65 and Over: 1984-1986

* Metropolitan county

[1] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

PUBLIC ASSISTANCE

* Metropolitan County

[1] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

TRANSPORTATION

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

TRANSPORTATION

Interstate Highway System: 1989

Motor Vehicle Registrations (Estimated): 1987

* Metropolitan County

[1] Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[2] See Appendix

Deaths: 1984-1987

	Total				1 Rank of 1987 Total	2 Total Rate	1 Rank of Rate	Percent Change in Total Number 1984-87	1987 White			1987 Black

* Metropolitan County

1 3
Rank: 1 = highest (range, 1-159), (range, 1-151)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

2
See Appendix

* Metropolitan County

[1] Live birth: a newborn showing any evidence of life (breath, heartbeat, or movement of voluntary muscles) after complete birth
Low birth weight: live birth with a weight of less than 2,500 grams

[2] White and black figures do not equal total number in every case due to the presence of other minorities not included in either racial category.

[3] See Appendix

* Metropolitan County

[1] White and black figures do not equal total number in every case due to the presence of other minorities not included in either racial category.

[2] Rank: 1 = lowest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

[3] See Appendix

Marriages: 1985-1987

	Total[1]			White			Black			1987 Rate[2]			Rank[3] of Total Rate	Percent Change in Total Number 1985-87

* Metropolitan County

\# Represents an increase or decrease from a zero base

1
Rank: 1 = highest (range, 1-159)
When counties share the same rank, the next lower rank is omitted. Because of rounded data, counties may have identical values shown, but different ranks.

2
Rate = number of reports/population X 1000

Sexually Transmitted Diseases: 1984-1986
Suicides: 1984-1987

* Metropolitan County

0 Represents an increase or decrease from a zero base

1 Rank: 1 = lowest (range 1-159), 2 (range, 1-159), 3 (range, (29-159)

APPENDIX

In every table counties with an asterisk (*) beside their name are metropolitan counties.

A metropolitan county is a county that is part of a Metropolitan Statistical Area (MSA). All other counties are nonmetropolitan counties. In 1988 Georgia had 38 metropolitan and 121 nonmetropolitan counties.

The general concept of a metropolitan area is one of a large population nucleus, together with adjacent communities which have a high degree of economic and social integration with that nucleus.

Each MSA has one or more central counties containing the area's main population concentration: an urbanized area with at least 50,000 inhabitants. An MSA may also include outlying counties which have close economic and social relationships with the central counties.

Pages 15-16 **AGRICULTURE**
Number of Farms, Harvested Cropland: 1969, 1974, 1978, 1982

A farm, as defined for the 1974 final reports and the 1978 and 1982 census, is any place from which $1000 or more of agricultural products were sold or normally would have been sold, during the census year.

The following definition (used for the 1959, 1964, and 1969 censuses, and for the 1974 preliminary county reports) counted a farm as any place with less than 10 acres from which $250 or more of agricultural products were sold or normally would have been sold during the census year, or any place of 10 acres or more from which $50 or more of agricultural products were sold or normally would have been sold during the census year.

Pages 51-52 **ECONOMICS**
Total Personal Income: 1981-1986

The personal income of an area is the income received by, or on behalf of, all the residents of the area. It includes the income received by persons from all sources; that is, from participation in production, transfer payments from government and business, and from government interest payments (which are treated like transfer payments). Persons consists of individuals, non-profit institutions, private non-insured welfare funds, and private trust funds. Proprietors' income is treated, in its entirety, as received by individuals. Life insurance carriers and private non-insured pension funds are not counted as persons, but their savings are credited to persons. Personal income is the sum of wage and salary disbursements, other labor income, proprietors' income with inventory valuation and capital consumption adjustments, rental income of persons with capital consumption adjustments, personal dividend income, personal interest income, and transfer payments, less personal contributions for social insurance.

APPENDIX

Pages 53-54 **ECONOMICS**
Transfer Payments: 1981-1986

Transfer payments to persons are income flows from both government and business -- for which services are not currently rendered. Government transfer payments include payments under the following programs: federal old age, survivors', disability, and hospital insurance; supplementary medical insurance; state unemployment insurance; railroad retirement and unemployment insurance; government retirement; federal and state government-insured workman's compensation; veteran's benefits, including veteran's life insurance; food stamps; black lung payments; supplemental security income; and direct relief. Government payments to non-profit institutions, other than for work under research and development contracts, are also included. The principle business transfers are liability payments for personal injury, corporate gifts to non-profit institutions, and consumer bad debts.

Pages 89-90 **HOUSING**
New Privately Owned Housing Units Authorized in Permit-Issuing Places: 1976-1987

The information for 1984-1987 was collected from approximately 17,000 places identified as permit issuing in 1984. This universe accounts for a major portion of new residential housing units started in the United States. In 1987, about 95 percent of all new private housing intended for occupancy on a housekeeping basis was constructed within permit-issuing places. Permit data for 1978-1983 were tabulated from a 16,000 permit place universe.

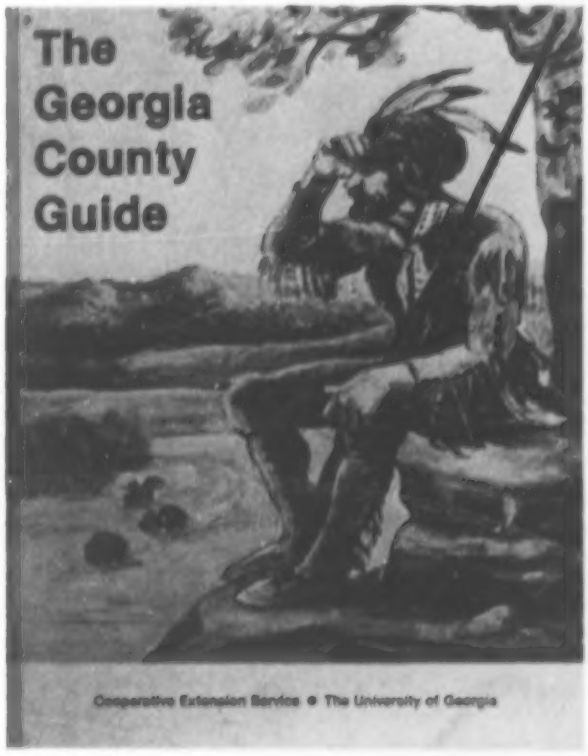
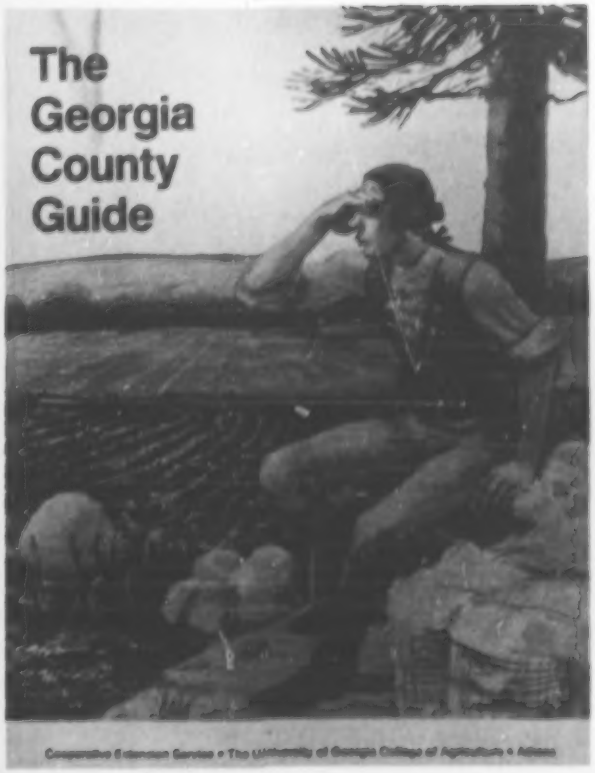
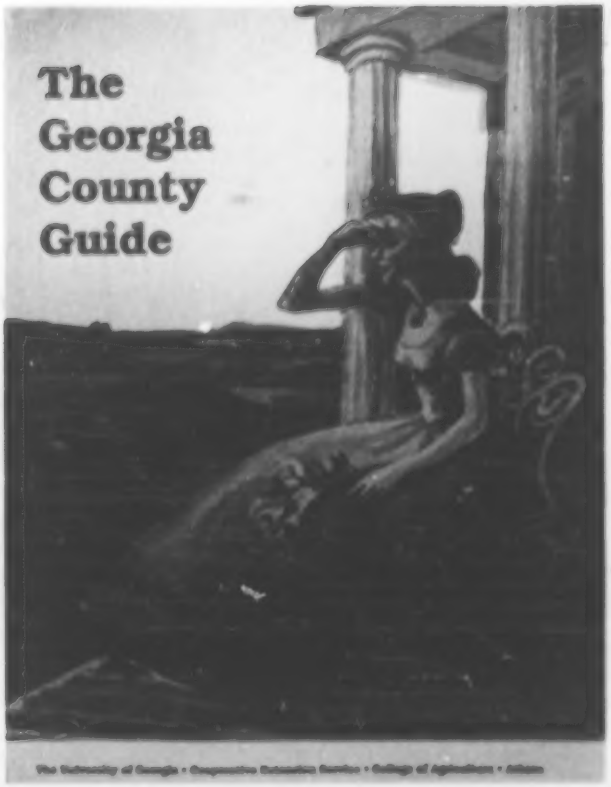
NOTES

ABOUT THE COVER






This year's cover as well as previous ones were painted by Vincent Keesee. They are intended to show the historical transition of daily life in Georgia. This year's scene depicts an early black entrepreneur in front of his store.
